

VET for School Students – Guidelines for Training Providers

Skills SA

Government of South Australia
Department of State Development

1. Purpose of the Guidelines

- 1.1 The purpose of these guidelines is to outline for training providers the Department for State Development (the Department) purchase arrangements for VET for School Students in South Australia. These purchase arrangements are effective from 1 July 2021 and apply to all school students seeking to commence in a subsidised training place in an approved course from 1 January 2022.
- 1.2 These guidelines should be read in conjunction with the Funded Activities Agreement (FAA) and provide detailed information on eligibility, entitlement, and conditions of access to a subsidised training place in an approved course for school students in South Australia.
- 1.3 These guidelines should be read in conjunction with the VET [Readiness Orientation Upfront Assessment of Need \(VETRO UAN\) Guidelines](#), [VETRO UAN Process Map](#) and [Instruction Guide on the School Student VET Referral form](#).
- 1.3 Training providers are advised to refer to the [VET for School Students List](#), a subset of the Subsidised Training List (STL), for information on courses approved for access by school students.
- 1.4 These purchase arrangements replace the Training Guarantee for SACE Students (TGSS) and Flexible Learning Options (FLO) Exemption purchase arrangements, which cease to operate close of business, Friday 11 December 2021.

2. Eligibility Criteria

- 2.1 To be eligible for access to a subsidised training place in an approved course, a school student must meet the following criteria. They must be:
 - An Australian citizen or New Zealand citizen or,
 - A permanent Australian resident or,
 - An eligible visa holder
 - Reside in South Australia

AND ARE:

 - Enrolled in Year 10, 11 or 12 and employed in a Training Contract that combines VET and school-based curriculum including SACE

OR ARE:

 - Enrolled in Year 11, 12 or 13 and are 16 years of age or turning 16 years of age in the current year of that enrolment, and
 - Are undertaking SACE or equivalent and,
 - Have completed a preparatory VET pathway
- 2.2 Training providers must sight evidence to demonstrate the eligibility criteria has been met, refer to [Funded Activities Agreement – Enrolment Requirements Under VET for School Students](#). Further detailed information on the range of evidence the Department accepts as demonstration of having completed a preparatory VET pathway, refer to the [VET for School Student Guide for Evidence of Completed VET Pathway](#).
- 2.3 To be eligible for a subsidised school-based apprenticeship or traineeship, school students must be in year 10, 11 or 12 at the time of commencement. School students below year 10 are not eligible to access a subsidised training place under a contract of training arrangement.

3. Entitlement

3.1 Course entitlement

3.1.1 School students who meet the eligibility criteria may be considered by the training provider for access to a subsidised training place in an approved course. The training provider must ensure the course appears in the VET for School Student List as approved for school students.

3.1.2 Whilst enrolled in a school the student may access and complete a maximum of:

- One Certificate II course, and
- One Certificate III course

The training provider is responsible for ensuring that providing a school student with access to subsidised course in their Registered Training Organisation does not result in the school student exceeding this specified entitlement limit. Training providers must make all reasonable efforts to check subsidised training account history prior to the creation of a new training account for a school student to eliminate the risk of the school student exceeding their entitlement whilst in school.

School students are not entitled to access subsidised foundation skills.

3.2 Access to courses

3.2.1 Training providers can assess school students for eligibility and suitability for access to an approved course where they have received a School Students VET Referral form from the school of enrolment. Receipt of the referral form provides authority for the training provider to initiate the VETRO UAN for suitability for the course, individual personal and learning support needs and, reading and numeracy capabilities.

3.2.2 Training providers will use the assessment outcomes of the VETRO UAN as the basis for determining access, including any conditions of access, to the subsidised training place in the school student's approved course of choice.

3.2.3 Training providers must ensure they have documented evidence that the conditions of access have been agreed to by the school student and school of enrolment prior to establishing the training account.

3.3 Consumption of course entitlement

3.3.1 Completion of an approved Certificate II or Certificate III course whilst a school student will result in a qualification that will count towards the individual's lifetime entitlement to subsidised training post school.

3.3.2 Additionally, the Department's intention is to deem a course entitlement commenced by a school student to be consumed where:

- a school student exits a course prior to completion, and
- subsidy has been paid against 70 per cent or more units of competency in the course

3.3.3 Where a school student exits the course prior to completion, the training provider must provide a Statement of Attainment for resulted units of competency on request from the school student or their school of enrolment, if the school has written authority from the school student to make that request on their behalf.

- 3.3.4 Training providers must ensure consumption of entitlement information is clearly communicated to, and understood by, the school student during the VETRO UAN and prior to the establishment of a training account.

3.4 Completion of a course post school

3.4.1 Continuing Students

- 3.4.1.1 School students will be supported post school by the Department to automatically continue with the training provider who established the training account in a subsidised course they commenced whilst enrolled in school, if they do not withdraw from that course prior to leaving school. This includes School Based Apprenticeships and Traineeships that will be supported until completion or termination of the training contract by the employer.
- 3.4.1.2 School leavers who are continuing students are not required to undertake the UAN if they are continuing with the training provider who established their training account as a school student in an approved course.
- 3.4.1.3 Training providers are to ensure that continuation of a course is discussed with the school students, prior to them leaving school, to facilitate continuity in delivery and assessment post school to support a successful completion. Training providers must contact the Department's Infoline on 1800 673 097 or email sasc.skills@sa.gov.au to discuss any circumstances where this may not be able to occur to ensure that post school, the continuing student is not disadvantaged.
- 3.4.1.4 If the training providers is unable to support a successful completion and the school leaver is assisted to transition to an alternative training provider, they may be required to undertake the UAN.

3.4.2 Exited whilst in school prior to completion

- 3.4.2.1 The Department will grant school leavers, who exited whilst in school without completing the approved course they commenced, up to a maximum of 12 months to recommence any remaining units of competency. This provision does not include courses delivered under School Based Apprenticeship or Traineeship arrangements.
- School leavers will need to contact the Department's Infoline on 1800 673 097 for assistance with this process within 12 months of leaving school. The Department will provide the school leaver with information on training providers who are subsidised to deliver the remaining units of competency.
- 3.4.2.2 The choice of training provider provided may include the original training provider who established the training account in the approved course and alternative approved training providers.
- 3.4.2.3 Where the original or an alternative training provider is unable to accommodate access to complete the remaining units of competency in the approved course, they must refer the school leaver back to the Department's Infoline on 1800 673 097 for assistance.
- 3.4.2.4 Training providers, whether the original or an alternative, will be required to conduct the UAN to determine whether to grant access to subsidy for any school leaver who is not a continuing student.

4. Conditions of access

4.1 VETRO UAN and findings

- 4.1.1 All school students who seek a subsidised training place in an approved course are required to participate fully in the VETRO UAN. There are no exceptions however, modification of the VETRO UAN is possible to accommodate, for example disability or remote locations.
- 4.1.2 Where a school student is assessed through the VETRO UAN to require additional learning supports, including foundation skills, to ensure a successful training outcome, these become a condition of access to subsidised training.
- 4.1.3 Training providers must have documented evidence of who is responsible for provision of learning supports identified as required to support a successful training outcome, and that this is agreed to by the training providing, the school of enrolment and the school student in writing, prior to the training provider establishing a training account. School students are not entitled to access subsidised foundation skills.

4.2 Course co-contribution

VET for school students approved courses require a co-contribution. Training providers will determine the student fee and any incidental fee that the school student will incur. The Department does not regulate course fees and training providers must determine their own course fee based on the difference between the subsidy the Department pays and the cost to deliver the course.

4.2.1 Invoicing for co-contribution

Training providers will invoice the referring school of enrolment for the student fee and any incidental fee related to courses that are delivered institutionally.

Training providers may invoice any combination of the employer or student or parent/guardian or referring school of enrolment for the student fee and any incidental fee related to courses delivered as a School-based Apprenticeship or Traineeship.

4.3 Success and Wellbeing Services

- 4.3.1 Non-government training providers must have a service agreement with a Department funded Success and Wellbeing Services provider.
- 4.3.2 Non-government training providers may during the VETRO UAN identify support needs for the school student and recommend a referral to Success and Wellbeing Services to be assessed for complex living, learning and transition support needs once they commence training. TAFE SA may refer school students to their Success and Wellbeing Services for assessment of specific support needs during the VETRO UAN to assist with planning to meet those needs in training.

Referral to Success and Wellbeing Services may also be through self-referral during training in the approved course or by the course trainer or other training provider personnel.

A link to the VET for School Student Success and Wellbeing Fact Sheet is included in the School Students VET Referral form in Part A for schools and Part C for parents. Completion of Part A and Part C of the Referral form confirms the school and parent agree to the student accessing Success and Wellbeing Services as needed.

- 4.3.3 School students are not obliged to accept the supports offered through Success and Wellbeing Services. Training providers, however, retain the right to determine during the VETRO UAN that a school student is unsuitable if, without the support of Success and Wellbeing Services or documented agreement for provision of the identified supports from the school of enrolment, they believe the student is at risk of non-completion.
